No compostable or biodegradable plastic items are allowed, including polylactic acid (PLA).

Plastics numbers 1 to 5 and 7

Take-out and delivery*:

- Cup or glass
- stir sticks
- straws

No compostable or biodegradable plastic items are allowed, including polylactic acid (PLA).

*Utensils can only be distributed if clients ask for them. Compostable plastic utensils are not authorized.

Plastic number 6

On-site consumption, takeout and delivery:

- trays (except for meat and fish)
- plates
- containers and covers (including covers for cups and glasses)
- cups or glasses
- stir sticks
- straws
- utensils

No compostable or biodegradable plastic items are allowed, including polylactic acid (PLA).

Exceptions

The prohibitions do not apply to:

- Establishments that offer only delivery service. For example: caterers who deliver themselves or through an intermediary; grocery stores that do not receive the public on their premises and deliver directly to the consumer themselves or through an intermediary.
- Non-profit organizations whose mission includes food distribution. For example: charities that distribute food or meals to vulnerable people.
