

Improve cleaning results with these high-tech cloths

These versatile microfiber cloths are the perfect choice for routine cleaning throughout the day. A more effective choice than cotton, microfiber is highly absorbent and effectively picks up and remove soils from your counters, tables and other hard surfaces. Can be used wet or dry and leaves no lint residue.

- More cost effective and eco-friendly than the cotton alternative
- Reusable, machine washable and dryer safe
- Quick drying and non-abrasive
- Multiple colors available to prevent cross contamination
